MIRROR INSPECTIONS

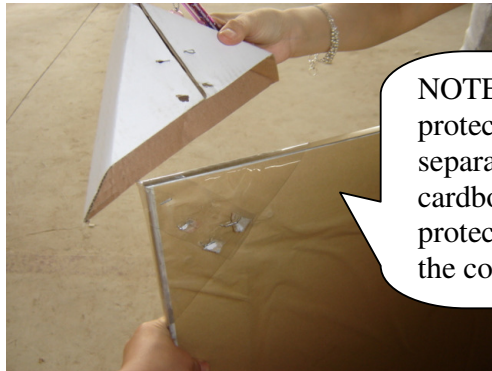

Please refer to below requirements of quality inspection for mirror. Please study carefully before production.

1. Coloration

- a. Matches Sample – Coloration of production must match our approval sample.
- b. No Streaks
- c. No Discoloration
- d. No Defects.

2. Corner Protectors

- a. Plastic – Place the transparent plastic corner protector on all corners.
- b. Cardboard – Place the cardboard corner protector on top of the plastic protector.

NOTE: please staple the plastic protector and cardboard protector separately. When we tear off the cardboard protector, the plastic protector should be remained at the corner.

3. Corner Joints

- a. No Cracks
- b. Colored

4. **Use Dark Colored Jesso (Compo)** when the mirror is Black or Dark Brown or even Antique Gold. Please **do not use White Jesso (Compo)** on the dark mirrors (Black, Brown, Antique Gold). This way if the mirror gets scratched, it will not be as noticeable.

5. Hangers

- a. Horizontal – Place hangers for both horizontal and vertical hanging.
- b. Vertical

Example of hanger position.

Example of D-ring hangers.

6. If there's any 3-D hangers including D-ring hangers (non-flat hangers), please add a cardboard to cover the hangers at the back of the mirror to avoid scratching by hanger on other products.

Example of cardboard protector.

7. Mirrored Glass

- a. No Defects
- b. Clean

8. Pre-Price Stickers

- a. 1 Preprice Sticker on front glass - place a **white sticker with black printing** (1"x1" easy remove sticker) on the **upper right** corner of the glass.
- b. 1 white Preprice Sticker at the back of mirror.

Example of preprice sticker.

9. Please add a **“Do Not Hang With Wire”** Stickers at the back of each mirror. (Sticker size is around 1"x2")

10. Dimensions

- a. Glass
- b. Molding
- c. Total Frame

11. Packaging

- a. Shipping Box
- b. Label
- c. Information

12. A Full Dust Cover (at back of mirror) must be on each Rectangle Wood or PS mirror.

13. No Warping of Molding

14. Frame is Sturdy and Does Not Wobble
